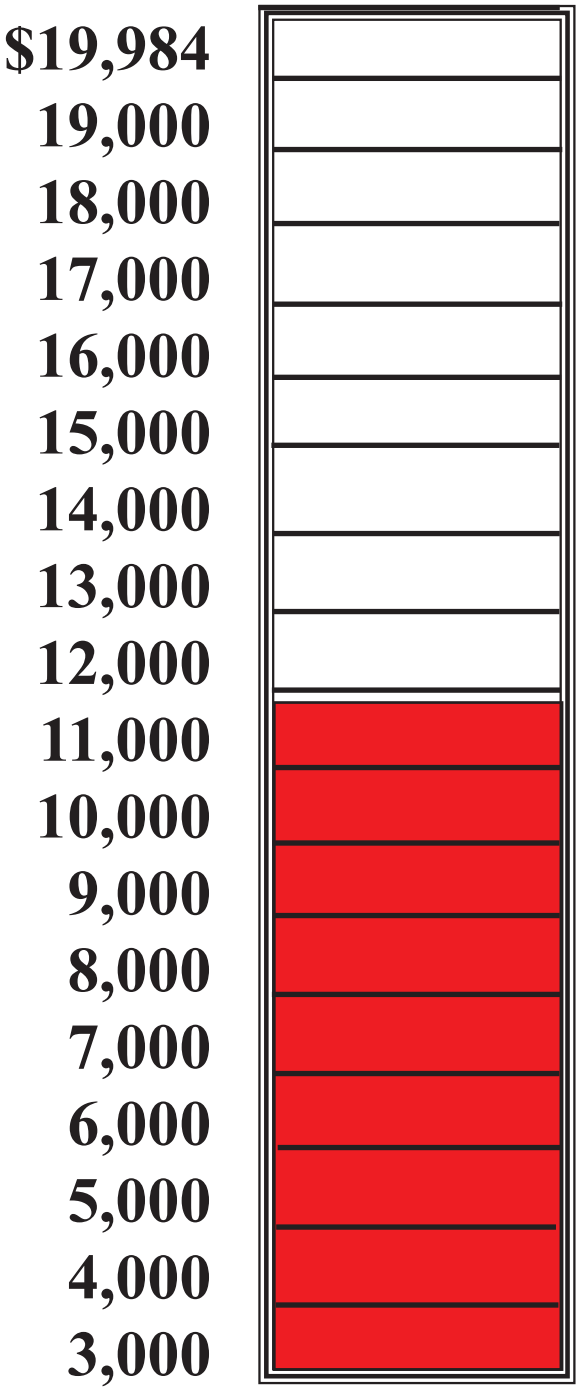
THANK YOU FOR HELPING WITH OUR MARION FENCE PROJECT!


In June we petitioned you, our listeners, for a critical ministry need ... our Marion station is in dire need of new fencing to protect our tower and its guy wires. Not only will the fence prevent attempted break-ins, it will protect children from trying to climb the wires. We must increase our security, and the proposed cost is $19,984. Here's an update as we extend a sincere thank you to those who have responded to our call for help - so far!
